Happy Birthday, Beethoven!

Celebrate Beethoven's 248th birthday! Students will share their families' traditions for celebrating birthdays.

Subject Areas: Social Studies, Language Arts, Music

Instructional Goals:

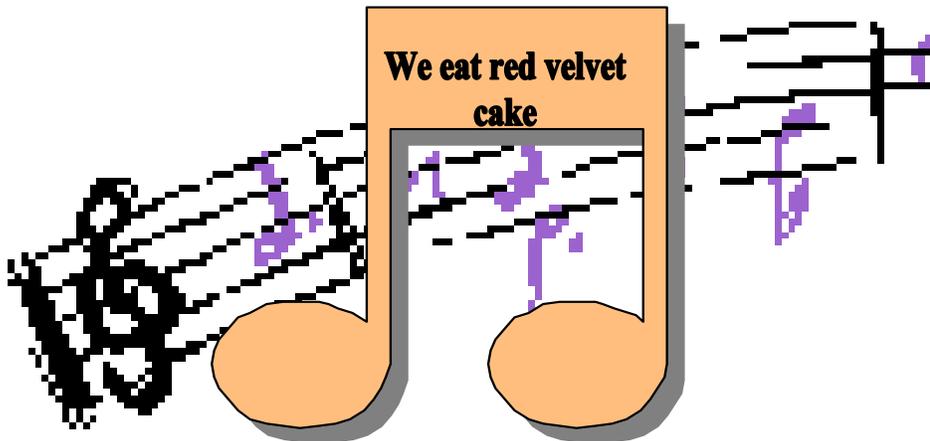

- Students will explore the traditions across the globe that people use to celebrate birthdays.
- Students will apply traditions to celebrate the life of Beethoven.
- Students will research historical significance of people who possess virtuosity.
- Students will use metacognition in determining salient information.

Materials needed:

- Internet access
- Reference materials
- Notebook paper
- White card stock
- Markers, crayons, colored pencils

Activity:

1. Ask the students to write down a family birthday celebration on a music note and post them on a musical score drawn on butcher paper or on chart paper.

2. Students will share family traditions and research birthday traditions around the world.

The following websites have great information on the history of birthdays:

www.kidsparties.com/traditions.htm

<http://www.birthdaycelebrations.net/traditions.htm>

3. Students may create birthday cards for Beethoven from around the world.

Traditions from Around the World:

Teacher’s Role:

The teacher’s role is to facilitate the discussion of traditions and how traditions may be manifested within specific cultures.

Creative Question Suggestions:

1. How might you celebrate the birthday for someone observing their 248th year?
2. How would your family’s traditions for celebrating birthdays be received by Beethoven?

Evaluation:

1. The students will be evaluated on their research notes on the birthday traditions across the globe.
2. The students will be evaluated on their birthday cards from across the world to Beethoven.

Move to It with a Mood!

Subject Areas: Music

Instructional Goals:

- * Students will create movements to selected pieces of music.
- * Students will understand the role of program music in music history.
- * Students will understand how program music affects the mood of the listener.

(Program music is a type of Art Music that attempts to create an extra-musical narrative, or tell a story through music without words.)

Materials:

- * Simple props (scarves, ribbons, etc.)
- * Recording of Beethoven’s music: “Rage Over Lost Penny”; Sonata, Op. 13, 2nd mvmt; Sonata, op. 10, No. 2, 3rd mvmt; Sonata, Op. 26 (Funeral March); and Sonata, Op. 70, 1st mvmt.
- * A recording for each group

Anticipatory Set:

1. The teacher will play selected pieces of music written by Beethoven.
2. The teacher will ask students to imagine a scenario or activity after each piece is played; students will suggest movements that might go with the activity.
3. The teacher will ask a student leader to do a movement as the other students mirror the student.
4. The teacher will ask the students what mood each piece evokes as they listen.
5. The teacher will give suggestions to the students on what kind of movement would match each piece.
6. The teacher will use the attached worksheet to assist students in describing the aspects of the music.

Activity:

1. Students will create movements that represents the mood of each piece.
2. Students will use simple props to enhance their movement.
3. Students will use the recording as they move.
4. Students will write and brainstorm about their movement for their piece.
5. Students will depict the emotions and mood of their song in their movement.
6. Student will perform their movement for the class.

Creative Question Suggestions:

1. How does the mood of each song help you decide how to move?
2. How does movement help you understand the music?

3. Was this activity easy or difficult? What made it so? Did you find it easy or frustrating? Why?

Evaluation:

1. Students will be evaluated on their cooperation with their classmates. Did they work well within their assigned personal movement group?
2. Did the students produce movement that demonstrates an understanding of the music?
3. Were the students able to easily communicate their ideas about musical movement in their writing?

Music Vocabulary Development

Note to the Teacher: These vocabulary cards may be duplicated and distributed to the children for use in games and activities, such as Concentration, Charades, or a group, silent-response strategy.

loud	soft
steady beat	no steady beat
rhythm	high
low	fast

Interviewing a Composer

Subject Areas:

Music, Language Arts

Instructional Goals:

- * Students will understand the research process.
- * Students will work in pairs to simulate an actual television interview.
- * Students will understand that composers are important to the cultural heritage of communities.

Materials:

- * Composer biography
- * KWL Chart
- * Learning Log
- * Optional: costumes for the reporter and the composer

Anticipatory Set:

1. The teacher will lead students in a discussion about television interviews.
2. The students will create a criteria chart on what constitutes a good television interview.

Activities:

1. Students will be allowed to select a partner.
2. The partner groups will begin a KWL chart on Beethoven to prepare them for their television interview. The groups should read the biography text for Beethoven and if time allows, they can continue their research into the composer with reference books, library resources, internet resources, etc. and continue adding to their KWL charts.
3. Students will write their own interview questions and answers for their presentations. Use world and regional maps to locate where the composer lived and consider how culture of his country would impact the composer's lifestyle, music, and personality. (Remember the answers are to be done in first-person, as the student will be taking on the persona of the composer.)
4. Students will present their interviews to the class. Students can evaluate other groups using the previously created class criteria chart.
5. If time permits, students can create a print advertisement to promote their interviews and attract "viewers." (Technology variations: students can use digital cameras to take photos for the print advertisement and use Word Publisher or PowerPoint applications to create the advertisement.)
6. The students will write in their learning logs to reveal the knowledge they gained while researching Beethoven and evaluating other groups' presentations.

Teacher's Role:

The teacher's role in this activity is to direct the class to create a strong criteria chart on conducting an interview. Once students understand what is expected they will be able to create an interview based on their research.

Creative Question Suggestions:

1. How will your group's portrayal of the composer reveal his personality, culture, and life?
2. Evaluate the history of the country where the composer lived. How might historical events impact the composer and his music?

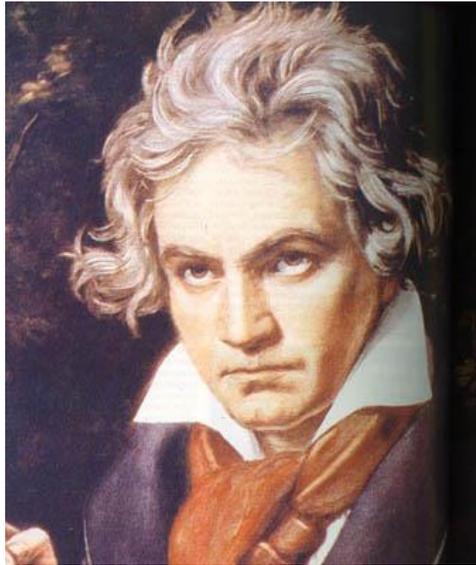

Evaluation:

1. Students will be evaluated on their interview presentations. Did the team cooperate with each other to complete the assignment (KWL chart, interview questions and answers that are well thought-out, and a creatively presented interview)?
2. Did the students produce a believable interview that mirrors the factual information of their composer? Did they take on the personas of the television interviewer and the composer?

THE STORY OF LUDWIG VAN BEETHOVEN (1770–1827)

Ludwig van Beethoven was born in Bonn, Germany. His father and grandfather were both musicians. Beethoven started lessons in piano, violin, and composition with his father when he was 4 years old.

Later in his life, Beethoven moved to Vienna, Austria. In Vienna, he was able to meet some of the finest musicians of his day, and to play his music for them. This was a happy time for him, and he had great success.

Beethoven loved nature, and he spent many holidays in the park where he took long walks. Sometimes, he saw things outdoors that inspired him to write music.

Beethoven started to lose his hearing when he was about 30 years old. This meant that he could not give concerts anymore, but he did keep writing music. In fact, some of his most famous pieces were written after he lost his hearing.

Beethoven became known as one of the greatest pianists of his day, and is considered one of the greatest composers in history. He played an important role in the development of Classical music as a whole, and music for the piano in particular.
